

HVI - The World's Source for High Voltage Test Equipment

Advanced test equipment for high voltage proof and preventive maintenance testing of electrical apparatus www.hvinc.com

CABLE TESTING & FAULT LOCATING - CUSTOM DESIGNED PACKAGE

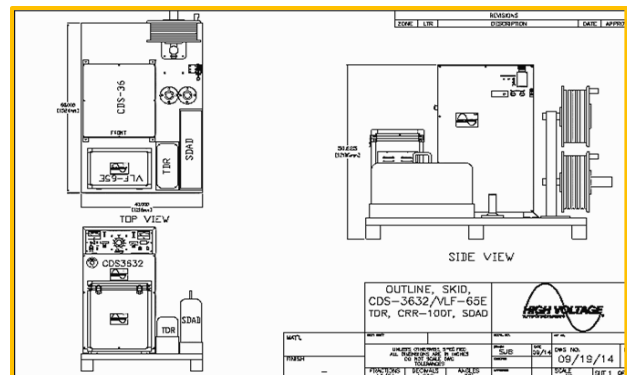

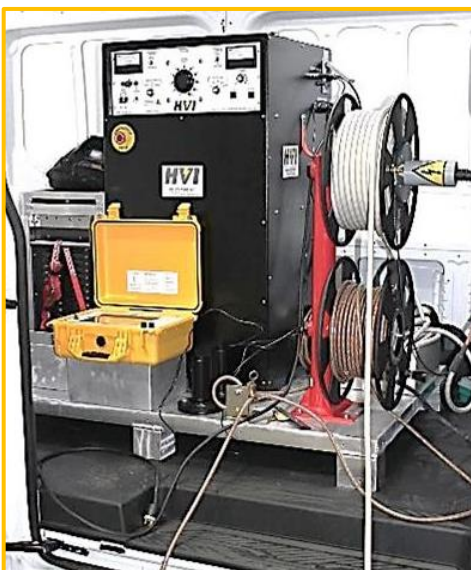

HVI designs and produces many of the best products for high voltage cable testing and cable fault locating. Let HVI help you design a custom package with the **right tools and optimal layout** to best fit your vehicle needs. Don't dedicate a van to only cable work when you can slide your custom designed skid in and out when needed for total flexibility & convenience.

SELECT YOUR INSTRUMENTS - HVI WILL BUILD IT

- 0.10 Hz. VLF AC Hipots: 30 kVac – 120 kVac
- 50/60 Hz. AC Hipots: 10 kVac – 100 kVac
- Partial Discharge & Tan Delta Measurement
- DC Hipot/Megohmmeter Models: 15 kVdc – 200 kVdc
- Thumpers/Surge generators: 5 kVdc – 36 kVdc to 3200 joules
- VLF/Thumper Combo: 0 - 33 kVac @ 1 μ F with VLF Cable Burner
- TDR/Radar Instruments (arc reflection filter internal to thumper)
- Cable reels: 100' HV & ground cable with MC connectors
- Various cable end accessory connectors for VLF and Thumper
- Customized aluminum skid: permanent or removeable
- Fault finding Listening/Pinpointing Devices: for URD & Networks
- Ω -Check® Concentric Neutral Resistance Tester

EASY & INSTANT TEST VAN

CDS-2010U Thumper
0 – 5/10/20 kVdc @ 1000J
Burn Current = 400 mAdc

Model VLF-65E
0 – 65 kVac @ 0.1 Hz.
Load rating > 10 μ F
